100OFFICES™

*“Compact and minimal
– say it all in two words”*

Offices that work. Successful offices design should ensure offices not only look good but are also functional. 100 offices brings to you a holistic design concept, which was traditionally limited to ergonomics and functionality, we have added some emotions to it.

At 100 offices we try to combine world class designs with high degree of flexibility and the integration of technology to make it an ideal solution for the managers of today. We stand for authority rather than pushiness, authenticity rather than status, collaboration rather than hierarchy.

100 offices is defined by quality of its material, its attention to detail, the quality of its workmanship and its sophisticated choice of finishes. It directly addresses the needs of contemporary high performing managers with its ease of use, clarity and focus on essentials.

We understand the essence of corporate culture, values and attitude.

“what is essential is invisible to the eye”
